<p>About the Map Scale is 1:4,000 so is larger than Ordnance Survey. Map also shows more detail – fences, knolls, depressions, distinctive trees, and uses different colours to aid navigation – yellow is open land, white is runnable woodland, light through to dark green represents woodland that is increasingly difficult to pass through.</p>	<p>Safety The Park is bounded and intersected by fencing and presents few hazards. You will need to use gates as you move through the park - please leave the gates as you have found them. Specifically watch out for: - trip hazards, and uneven ground - cattle is sometimes present in the large field below the lake - other park users and dogs - there is a small lake and a narrow stream</p>
