LONG TRAIL CHALLENGE RESULTS

Sunday 8th August 2010

Organiser's Comments

Thank you to everyone for turning up to this event that Saxons last ran about 20 years ago. This re-run was a bit of an experiment to see how popular it would be. We were delighted to see more than half the competitors were not from orienteering clubs . Ightham is a technically tricky set of woods; if you did miss a control there do not be disheartened. Next year we will hold the event again but start from Knole which is technically much easier. Sorry about the disappearing tapes in Seal - a tidy minded dog walker removed them.

Saxons run a series of weekend events throughout Kent, in the local parks, woods and forests. We also have a weekday evening series where you navigate by head torch and finish in the pub. For further information please visit the website www.saxons-oc.org. Courses cater for all abilities and ages.

Jerry Purkis
