

Thanks to everyone who came along to Dunorlan Park on the hottest day of the year so far. I am using this as my excuse for wrongly siting control 49. This was discovered and correctly placed during the event. This control was the first one on the light green course. To make the results fair I have therefore deducted the time taken from the start to control 1 on this course for everyone and this is the time shown in the results. For those of you doing the score there is no way of allowing for this so initial times stand. Several competitors on the score course did not follow the strict 30s, 40s, 50s rule with 60 in between each changeover. I have only counted controls that were visited in the correct sequence, so the totals you have on your printout may not be the same as mine.

I hope you enjoyed this event and hope to see many of you at the next event in the series on 27 July at Ightham

Jean
