

Hindleap Warren Regional
Sunday 8 Dec 2013

Organisers Comments

The weather was kind to us on Sunday allowing everyone to run their courses and enjoy the forest.

Thanks especially to the many helpers from Saxons (and other clubs) for your help on the day, and to the controller and planners for their time.

Thanks also to Hindleap Warren Outdoor Education Centre for allowing us to use their facilities for an event centre.

Yellow Course results:

"The results of the Yellow course have been adjusted to reflect a misplaced control either when it was being placed in the forest or was moved by the public before the competition started.

The misplaced control resulted in competitors taking excessive times to #8 and this may have affected their energy/enthusiasm in completing the remainder of the course. On this basis the results are given with the race being finished at #7."
