

Manor Park 12 June Organisers Comments

The second in the Saxons Summer Series was held at Manor Park Country Park in West Malling on a beautiful summer's evening. This was a score event designed to make experienced orienteers think but was also suitable for beginners. We had a good turnout of Scouts taking part in the unconstrained score event (controls could be visited in any order), and hope to see some of them at future events. Congratulations to the winning pair of Ben Mounter and Max Justie who visited 15 of the 21 controls in the time allowed (45 minutes). In the constrained score event (where controls had to be visited in two series and with the added constraint of needing to visit odd then even controls in each series with a compulsory changeover control) the winner by quite a margin was Alan Hickling. From his GPS he reckoned he had run approx 4.5 k.
